

PETERSON The Baby Place

An Unforgettable Experience

Choosing a hospital for this special occasion is one of the first and most important decisions you will make. The Baby Place at Peterson Regional Medical Center was designed to provide the best medical care and the most comprehensive services to care for you through every stage of pregnancy.

The Baby Place is staffed by a wonderful team of compassionate, experienced and family-centered caregivers. The Baby Place has the advanced technology and a total commitment to make your child's birth a joyful and memorable experience for the whole family.

Within Women's Services there are 14 beautifully appointed and spacious rooms. Four of those rooms are equipped for a complete labor, delivery and recovery experience. Each room designed exclusively for the comfort of both mom and baby, creating a setting that feels more like home than a hospital.

Birthing Options

Peterson Regional Medical Center also offers Midwife delivery as an alternative birthing option. Certified Nurse Midwives work closely with moms-to-be through their pregnancy, labor, and delivery. This option provides a highly personal relationship, while still providing the security of immediate hospital resources. For more information please call 830-258-7444.

Pregnancy to Parenting

Peterson Regional Medical Center and The Baby Place offer special classes for pregnant women and their partners. These classes are designed to provide information on pregnancy, stages of labor, pain relief measures and how to care for your baby and yourself after delivery. Infant safety and nutrition is also covered.

Find a complete list of available classes on our website www.petersonrhc.com

High Tech Care

Peterson is committed to providing advanced technology that benefits all our patients. The Baby Place has bedside computer monitoring, bedside documentation as well as an electronic medication administering system. Our high-tech security system controls access to the Women's Services unit to keep moms and babies safe and secure

Beyond Expectations

Peterson also offers the option of enjoying room service. "At-Your-Request" room service delivers made-to-order meals anytime between 6:30 am and 6:30 pm. Registered dietitians also work with those who have special dietary restrictions - such as vegan or vegetarian meals - or those who have medical or religious dietary requirements.

Each patient room is equipped with cable television, wireless internet access and an in-room thermostat, which allow for individual temperature adjustment.

For friends and family members who aren't able to visit the hospital, photos of our newborns can be seen by visiting the hospital website and clicking on Lullaby Lane.

Your comfort and the care of your baby are our biggest concerns. Our goal is to make your stay with us as relaxing and worry-free as possible. If you would like a tour of the hospital and the Baby Place, please call 830-258-7444.
