1 Revolutionizing Medical Training for Infant Care - The SIM NewB Baby

Thanks to donors like you, Peterson Health is once again "Elevating Health" — this time for our tiniest patients! Donor funds have enabled us to acquire a SIM NewB baby, an advanced medical simulator that replicates the physiology and responses of a real newborn. This simulator is a vital tool for medical training and education, allowing healthcare professionals to practice various procedures and interventions in a realistic, risk-free environment. It can simulate breathing, crying, and medical emergencies for valuable hands-on training.

This simulator will directly benefit the Emergency Department, Women's Services, and Surgical Services. **THANK YOU** for your support in making this life-saving advancement possible.

2 The Magnet Journey - Creating and Sustaining a Culture of Excellence

Peterson Health is committed to delivering quality healthcare to our community and continuously improving our patient care standards. We are actively working towards earning Magnet Recognition, a prestigious accolade for hospitals showcasing exceptional nursing care and a dedication to excellence.

This recognition entails rigorous evaluations, self-assessment, and the constant refinement of nursing practices. It's not just a badge of honor; it represents our unwavering commitment to offering the best care possible.

As a donor, your support is invaluable. Your contributions help cover the application costs for this process, but they go beyond a mere donation – they are an investment in our community's health and wellbeing. We sincerely appreciate your ongoing support in our journey towards healthcare excellence. **Together, we are positively impacting countless lives in the Texas Hill Country.** Thank you for being an integral part of our pursuit of Magnet Recognition and helping us reach new heights in healthcare.
