Peterson Acute Rehab Unit excels at helping you regain independence and improve your ability to care for yourself. Our outcomes are equal to, and often better than, those of rehab units nationwide.

WORLD-CLASS CARE % OF PATIENTS IMPROVED

ABOUT US

Our rehabilitation team keeps a close eye on your progress.

We set goals based on what you need, so we can make a safe plan for when you leave the rehab unit.

WHY CHOOSE US

- ✓ Home practice environments including a grocery store, pretend car, kitchen and apartment
- ✓ Outdoor walking path with multiple surfaces
- ✓ Hands on guidance to train your family and loved ones
- ✓ Education on how to manage the effects from a stroke

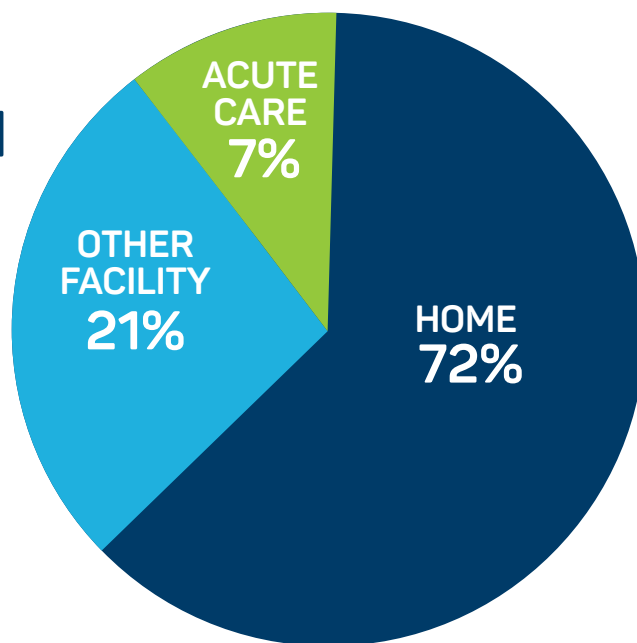

87 patients served in 2025

Average of 16 visits per discipline
But this is dependent on your needs!

Minimum of **3 HOURS** of therapy
per DAY at least 5 days a week

POST-ARU DESTINATION

After being sick or having a serious medical problem, it can be hard to do everyday things like walking or getting around.

Our rehabilitation team is here to help you get better at these skills so you can be as independent as possible. We focus on what matters most to **YOU**.
